Preface	xxxi
1 Integration of Supportive and Palliative Care into Oncology	1
Introduction	1
What Do We Mean by Integration?	2
ESMO Designated Centres of Integrated Oncology and Palliative Care	8
Further Reading	9
2 Assessment of Symptoms and Needs	11
Symptoms Prevalence and Intensity Depend on How They Are Assessed	11
More Accurate Information Through Patient-reported Outcomes	12
Validated Questionnaires Can Screen for Multiple Symptoms	12
PROMs Can More Accurately Measure Severity of Symptoms and Toxicity Grade	13
Routine Electronic PROMs Can Assess Symptom Burden Between Clinic Visits	14
Beyond Symptoms – Assessment of Needs	15
When Time is Short – Brief Multidimensional Screening Tools	16
Valuable Screening Questions	16
Assessing Coping, Social and Spiritual Resources is Paramount	17

	Assessments Must Lead to Action	18
	Further Reading	19
3	Cancer-related Mental Health, Psychological, Spiritual and Cultural Issues	21
	Mental Health, Psychological and Emotional Issues Related to Cancer – Treating the Patient in an Integrated and Holistic Manner	21
	Spiritual and Cultural Issues Related to Cancer	22
	Prevalence of Mental Health and Psychological Issues Related to Cancer	22
	Psychosocial Understanding of a Cancer Diagnosis and Treatment	23
	Special Aspects of Mental Health and Psychosocial Issues in Cancer	24
	Conclusion	28
	Further Reading	28
4	Communication with Cancer Patients	30
	The Importance and Benefits of Effective Communication in the Cancer Setting	30
	Challenging Situations	32
	Further Reading	38
5	Predicting Prognosis	39
	The Importance of Predicting Prognosis	39
	Predicting Prognosis in the Era of Immunotherapy	41
	The Reasons Why Some Clinicians are Better Prognosticators Than Others	42
	Tools to Support Predicting Prognosis	43
	The Importance of Communication	46
	Key Messages	46
	Further Reading	47
6	Cancer- and Treatment-related Symptoms	49
6.1	Toxicities of Immunotherapy and Targeted Therapy	50
	The Mechanism of Action of Immune Checkpoints	50

The Mechanisms of Action of Targeted Therapies	51
Toxicities of ICIs and Their Management	52
Toxicities of Targeted Therapies and Their Management	56
Conclusion	59
Further Reading	59
6.2 Radiotherapy-induced Symptoms	62
Radiotherapy-induced Nausea and Vomiting	63
Neurotoxicity	63
Lung Toxicity	64
Gastrointestinal Toxicity	66
Skin Toxicity	68
Further Reading	70
6.3 Gastrointestinal Problems	72
Introduction: The Prevalence of Gastrointestinal Complications in Cancer Patients and the Impact on their Quality of Life	72
6.3.1 Malignant Bowel Obstruction	73
Incidence	73
Causes	73
Clinical Features	73
Diagnosis	73
Principles of Treatment	74
Further Reading	77
6.3.2 Constipation	78
Incidence	78
Causes	78
Grading	79
Prevention, Diagnosis and Management	79
Further Reading	80
6.3.3 Diarrhoea	81
Most Frequent Causes and Incidence	81
Grading	82
Principles of Treatment	82
Further Reading	84

6.3.4 Cachexia and Nutrition	85
Incidence, Pathophysiology and Clinical Impact of Cachexia	85
Definition of Cachexia	85
Early Detection and Assessment of Cachexia	86
Treatment of Cachexia	86
Further Reading	87
6.3.5 Mucositis	88
Incidence	88
Clinical Presentation	89
Grading	89
Principles of Treatment	90
Further Reading	90
6.3.6 Chemotherapy/Radiotherapy-related Nausea and Vomiting	91
Incidence	91
Causes	91
Grading	92
Principles of Treatment	92
Further Reading	93
6.3.7 Tumour-related Nausea and Vomiting in Advanced Cancer	94
Incidence	94
Causes	94
Assessment	94
Principles of Treatment	96
Further Reading	97
6.3.8 Malignant Ascites	98
Definition	98
Aetiology	98
Clinical Presentation	98
Diagnosis	98
Treatment	99
Further Reading	100

6.4 Respiratory Problems	101
Introduction	101
Dyspnoea	101
Cough	106
Haemoptysis	109
Further Reading	110
6.5 Neurological Complications	112
Introduction	112
6.5.1 Delirium	113
Further Reading	114
6.5.2 Seizures	115
Further Reading	116
6.5.3 Encephalopathy	117
Further Reading	118
6.5.4 Brain Metastasis	120
Further Reading	121
6.5.5 Leptomeningeal Metastases in Solid Tumours	123
Further Reading	125
6.5.6 Spinal Cord Compression	126
Further Reading	127
6.5.7 Peripheral Neuropathy	128
Further Reading	129
6.6 Psychiatric Problems in Cancer Patients	130
Prevalence	130
Assessment	131
Management of Specific Psychiatric Disorders	132
Conclusion	137
Further Reading	138
6.7 Cancer Pain	140
Prevalence and Aetiology of Cancer Pain	140
Assessment and Classification of Cancer Pain	140
Management of Cancer Pain	142
Further Reading	146

6.8 Haematological Complications	148
Introduction: Haematological Complications in Cancer Patients	148
6.8.1 Anaemia	149
Background and Evaluation	149
Management	149
Further Reading	151
6.8.2 Febrile Neutropaenia	152
Definition of Febrile Neutropaenia	152
Incidence, Morbidity, Mortality and Microorganisms	152
Chemoprophylaxis	153
Indications for Primary Prophylaxis of FN with G-CSF	153
Dose Schedule, Route of Application of G-CSF and Pegfilgrastim	153
Management of FN: Patient Education and Local Policies	153
Further Reading	154
6.8.3 Thrombocytopaenia	155
Incidence	155
Grades	155
Clinical Features	156
Principles of Management	156
Prevention of Bleeding	157
Chemotherapy-induced Thrombocytopenia	157
Further Reading	157
6.8.4 Bleeding	159
Background	159
Evaluation	159
Disseminated Intravascular Coagulation	159
Vitamin K Antagonists, Heparin and Direct Oral Anticoagulants	160
Specific Bleeding Settings	161
Further Reading	161
6.8.5 Thromboembolic Events	162
Background and Clinical Consequences	162
Pathophysiology	162

Incidence	163
Assessment of Thrombotic Risk	163
Principles of Thromboprophylaxis	163
Principles of Treatment	164
Conclusion	166
Further Reading	166
6.9 Metabolic Complications of Cancer	168
Hypercalcaemia	168
Syndrome of Inappropriate Antidiuretic Hormone	171
Further Reading	174
6.10 Fatigue	175
Pharmacological Treatments	177
Non-pharmacological Interventions	178
Mind-Body Interventions	179
Further Reading	180
7 Care of the Dying Patient	182
Identifying That Death is Close	182
Advance Directives	183
Where Should the Patient be Cared For	183
Patient Care	184
Anticipatory Care Planning for Emergencies	188
Using Sedation for Refractory Distress	189
Family Wellbeing	191
When Death Occurs	193
After a Patient Death	194
Conclusion	194
Further Reading	195
8 Rehabilitation in Cancer – Role of Exercise and Nutrition	196
Safeguarding Exercise Capacity During and After Cancer Treatment	196
Nutrition During Cancer Treatment and Follow-up	201
Lifestyle Changes During Cancer Treatment and Follow-up	202
Further Reading	204

9	Living With and Beyond Cancer	207
	Reproductive Issues	207
	Cognitive Impairment After Cancer Treatment	211
	Survivor Care Plans	212
	Further Reading	214
10	Ethics in Supportive and Palliative Care	216
	Respect for Autonomy and Consent	217
	Withholding or Withdrawing Life-prolonging Treatment	219
	Supporting Healthcare Professionals to Manage Patients and Their Families at the End of Life	219
	Further Reading	220
11	Research in Supportive and Palliative Care	221
	Ongoing Research	222
	Areas of Greatest Need	223
	Further Reading	225
	Index	227

Does this Table of Contents interest you? Would you like to read more?

If you are an ESMO Member, simply log in to your account to download the complete book along with over 20 other titles on a broad range of topics - all of them written to assist you in your daily practice.

If not an ESMO Member, then consider joining!

ESMO Members belong to a global community of over 25,000 oncology professionals. Membership provides you many other benefits, including:

- **Full access to ESMO educational and scientific resources**, all centralised on our portal OncologyPRO
- An **online subscription to Annals of Oncology**
- A wide range of **exclusive courses and learning opportunities** for every stage of your career
- **Reduced registration fees** for ESMO meetings
